Detailed Action

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 6, and 9 objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.
 - a) Claim 6 is objected to because a depending claim must depend from a previous claim, not a later claim. It is suggested that claim 6 depends on claim 1.
 - b) Claim 9 is objected to because a depending claim must depend from a previous claim, not a later claim. It is suggested that claim 9 depends on claim 1.
2. The above noted problems are not necessarily an exhaustive listing, but are meant to be exemplary of the types of errors present. It is incumbent upon an applicant to ensure that any amendment filed resolves all deficiencies and places the claims in compliance with 35 USC 112.
3. Appropriate correction is required
